A message from Mrs Coles

A very warm welcome back to everyone!

It has been lovely to see all the children back and looking incredibly smart this week. They have settled in really well with their new class teachers and already showing us how fabulous they are.

As it is the start of term, we will be sending out lots of information which we would urge you all to read. Next week we will send out information regarding behaviour and setting the right expectations for pupils, staff and parents in school, and attendance which is a focus for all schools. We will be sending out our Attendance pack which includes why good attendance is important and how we can support you.

Please have a look at our website regarding Pathfinder's Beacon initiative and if you would like any further information, just contact school.

Miss School, Miss...

Swimming starts for Year 4

Y6 will be starting their WW1 landscapes in art

Y3 are being scientists and taking part in some experiments!

We can't believe a week has gone by already but enjoy the weekend and we will do it all again next week!

Attendance this week

Across Reception to Y6, we have had **33 absences** this week. Whilst we understand that the majority is due to sickness, we have a lot of children who don't come into school and we are not made aware of the reason why. If your child is absent and you do not make contact with school, your child will be marked as an unauthorised absence.

After School Club bookings

If you wish to book your child into After School Club after 1pm on the day required, please call the school office rather than sending an email. Emails may not be read, before the end of the day. If your call isn't answered, please leave a voicemail.

Thank you.

Lunch bookings

If you want your child to have a school dinner, please book them, via ParentPay by midnight of Sunday before the following week. Next week's menu is attached to the newsletter.

Please only book from the main 4 options, unless your child has been given a specific allergy aware menu.

Thank you.

Use of mobile phones on school grounds

As communicated to parents earlier in the week, to keep all our children safe, please refrain from using your mobile phone whilst on school grounds. This includes taking photographs.

Thank you for your cooperation and understanding.
